

## **Instructions for Use:**

*For the full program Terms and Conditions please refer to page 3 of your application.*

### **Step 1: Determine Eligibility:**

Verify the utility company listed on the rebate application is your utility service provider. Applications for other participating utility service providers can be found on the [www.michigan-energy.org](http://www.michigan-energy.org) website by selecting the name of your utility service provider.

Thoroughly read the eligibility requirements in the “Total Rebate Requested” section to verify the items you have installed meet all of the eligibility terms.

### **Step 2: Install program defined measures:**

Some measures may be installed by you, the homeowner. If this is the case, make sure you save the receipts for the measures for which you plan to request a rebate.

It may be necessary to hire a contractor to install some of the measures. You may either select a licensed contractor from your community or visit the “Registered Contractors” link (coming soon) on our website, which includes a list of contractors who have notified us they provide installation services for rebate eligible measures.

Once the work has been completed, make sure you get a paid receipt/invoice from your contractor. Your receipt or invoice must clearly indicate the equipment type, make, model, serial number, price and date of purchase or installation. Permit information is required (when permit is required by the building code). Also, make sure you ask your contractor for his/her signature on the designated line on the application. Applications must be received within thirty days of the purchase and/or installation of measures.

### **Step 3: Complete and submit your rebate application:**

Make sure you fill out the application completely. Fields left blank on your application will delay the processing of your rebate application. To verify you have included all the items required see the checklist on Page 1 of the application.

**Thank you for participating in the Energy Optimization program.**

Mail your completed application and required paperwork to:

## 6. Terms and Conditions

**APPLICATION:** This application and any required additional documentation, including the invoice, must be filled out completely, truthfully and accurately. Customers are advised to retain a copy of this application and any accompanying documentation submitted to Energy Optimization \* and their contractors under this program. Energy Optimization \* and their contractors will not be responsible for lost documentation pertaining to this application request. Details of this program, including rebate levels, are subject to change or cancellation without prior notice. This application with required documentation must be received within 30 days of the purchase/installations' completion. Please call for the most up-to-date details. **1-877-296-4319** or visit [michigan-energy.org](http://michigan-energy.org)

**LIMITED FUNDS:** Funds for rebates are limited and available on a first-come, first-served basis. Rebate amounts are valid through December 31, 2010. Energy Optimization \* and their contractors reserves the right to not pay this rebate if funds are not available at the time of application approval, or if the form and all required additional information are not filled out completely and accurately.

**ELIGIBILITY:** This offer is valid for Escanaba Energy residential customers applying through the Escanaba Energy Residential HVAC Program only. Customers applying for a rebate must receive service from Escanaba Energy. This offer is not valid for new construction homes or commercial properties. Equipment must be installed in the Escanaba Energy service territory. Eligible systems are listed above in section 4 of the application.

**APPROVAL, VERIFICATION AND INSPECTION:** Prior to any payment of rebates, Energy Optimization \*and their contractors reserve the right to verify sales transactions. Customer's contractor will verify that the installed energy saving measures meet all applicable building codes, zoning laws, local, state, and federal requirements, and other relevant requirements. Contractor is responsible for any applicable permits as required by aforementioned code/law. Outdoor temperatures may affect this verification process. Customer's home may also be selected for a quality control post-installation inspection by Energy Optimization \*and their contractors. No warranty is implied by this inspection.

**PROOF OF PURCHASE:** A contractor's invoice itemizing the purchased equipment must accompany each Escanaba Energy HVAC Rebate Application Form. The invoice copy must indicate the equipment type, make, model, price and serial numbers, (coil and condenser model/serial numbers listed separately) and the date of purchase.

**PAYMENT:** Please allow up to 6-8 weeks for payment. Payment processing may take longer if information is missing on the application. Please visit [michigan-energy.org](http://michigan-energy.org) if you have any questions about your rebate.

**TAX LIABILITY:** Energy Optimization \*and their contractors will not be responsible for any tax liability that may be imposed on the customer as a result of the payment of rebates. Please contact your tax advisor for more information.

**FACSIMILE/SCANNED:** Facsimile transmission of any signed original document, and the retransmission of any signed facsimile transmission, shall be the same as delivery of the original signed document. Scanned original documents transmitted to Energy Optimization \* and their contractors as an attachment via electronic mail shall be the same as delivery of the original signed document. At the request of Energy Optimization \*, customer shall confirm documents with a facsimile transmitted signature or a scanned signature by providing the original document. Please fax to **517- 999-2351** or e-mail [info@michigan-energy.org](mailto:info@michigan-energy.org)

**NO ENDORSEMENT:** Energy Optimization \*and their contractors do not endorse any particular manufacturer, product, system design, claim, or contractor in promoting this program.

\* [Energy Optimization is a program being administered and implemented by CLEAResult Consulting, Great Lakes LLC and the Michigan Electric Cooperative Association in compliance with PA 295 of 2008.]
